Luke Poutre is a current student working towards his Masters degree in Near Eastern Archaeology at La Sierra University. Prior to his entrance into the field, Luke served in the U.S. Army before working in civil litigation and tort law. He hopes to continue his involvement with projects in the Near East, and eventually pursue a doctoral degree in archaeology.

"I am grateful for the opportunities that have been provided for me, as well as this opportunity to offset the costs of the project...I see this as an opportunity to grow not only as an archaeologist, but as a person and an inhabitant of a much larger world than what I have been exposed to thus far in my life. After years of confusion, I now have the ability to heed my true purpose."

Nathaniel Welch

US Marines
Montana State University-Northern
Site: Qach Rresh, Iraq

Nathaniel Welch lives in northern Montana on the plains and just celebrated his 30th birthday in August- luckily his joints held together in the field. He has always been interested in history. Tied in with that is archaeology, which made his experience all the better. He hopes more opportunities like this will arise for him...but he fears his dog won't let him leave so easily next time.

"It is appropriate now to confess that I loved every day I got to spend there and all the work that went into the project. My back and knees aching were small prices to pay, and I would gladly do it again."

FELLOWSHIP DATA

Over the past 6
years the
Steinmetz
Scholarships have
provided...

\$11,500 to

6 scholars at

6 different sites

Thank you for your
continued support of
the next generation of
archaeologists!
