LCP 2025 Workshop: Hellenistic Pottery from Asia Minor Teos, Seferihisar, Turkey July 3rd-5th, 2025

The [Levantine Ceramics Project](http://www.levantineceramics.org) ([LCP](http://www.levantineceramics.org)) and the Teos Excavation project announce a workshop on the Hellenistic pottery of Asia Minor, to be held **July 3rd-5th, 2025**, at the Teos excavation compound. This workshop will bring together scholars and students for open discussion and learning, and with the goal of adding material to the [LCP](http://www.levantineceramics.org) so that this learning can be shared with others, now and in the future. One day of the workshop will be spent submitting vessels and related information to the [LCP](http://www.levantineceramics.org). Thus, we ask all participants to do the following in advance of the workshop:

1. Please [register on the LCP](https://www.levantineceramics.org/users/sign_up). When you do, make sure to check the box that says “Make me a contributor”: https://www.levantineceramics.org/users/sign_up. Registering as a contributor means you receive credit for your submissions, e.g.,: Dündar, Erkan; Vessel: PTR.13.348.L-19.SU089-04, Site: Patara, The Levantine Ceramics Project, <https://www.levantineceramics.org/vessels/27122-ptr-13-348-l-19-su089-04>.
2. Select about 20 vessels for submission. Put this information in a spreadsheet or catalogue, beginning with individual registration number and archaeological context, as well as measurements, color & texture, surface treatment, firing, association with a specific ware, etc.
3. Compile drawings and photos. Photos do not need complicated set-ups. They can even be taken with a cell phone! We will be sending a short (1-minute) demonstration video. For a nice example of a photo taken with a cell phone in a storeroom: <https://www.levantineceramics.org/vessels/17570-kt5131-3>.
4. Lastly, bring this information with you on a computer or flash drive.

If you are interested in participating, please contact:

Prof. Dr. Musa Kadioğlu, Ankara Üniversitesi
Director, Teos Excavations/<http://teos.ankara.edu.tr>
musakadioglu@ankara.edu.tr

Prof. Dr. Andrea M. Berlin, Boston University
Founder & editor, [The Levantine Ceramics Project](http://www.levantineceramics.org)
aberlin@bu.edu

We look forward to seeing you in the beautiful environs of Teos next July!
